Front-End Developer | *4 years of experience*

With over 4 years of experience in Front-End development using JavaScript, TypeScript, React.Js, Next.Js, and Angular. I am seeking a position as a Mid-Level Front-End Developer. My main achievements include conducting a POC (Proof of Concept) that led to the global adoption of a data tracking redesign, collaborating with LATAM and USA teams at Bayer for the successful delivery of the first version of the platform, thus creating immersive and responsive web experiences with microservices integration using AWS and Adobe Cloud Manager (EAM). Additionally, I have taught over a thousand hours of programming classes, using technologies such as JavaScript, HTML, CSS, React, React Native, Python, and Node.Js.

Skills

JavaScript, TypeScript, Next.Js, React, React Native, Redux, Rest, Angular, Node.Js, HTML, CSS, Tailwind, Bootstrap, MySQL, Postman, Firebase, Scrum, Kanban, Azure, Aha!, Monday, Asana, Trello, Storybook, Adobe Cloud, AWS, GIT, WSL, Analytics, Figma, UX/UI, Cyber Security Fundamentals, Discovery, POC.

ACHIEVEMENTS

- **POC Analytics - Global Adoption**
  Refactoring with over 10,000 lines of code in analytics, the new concept was adopted by more than 5 countries.
- **Brazil Innovation Sprint Awards - The Analyzer**
  Received an award for significant collaboration on the Agro Bayer project.
- **Thousand Hours of Programming**
  Over a thousand hours teaching classes using JavaScript, React / React Native, HTML, CSS, and NodeJs.
- **Successful Delivery**
  Delivery of a global platform in Agro with LATAM and USA teams.

Experience

Bayer – Front-End Developer

Feb 2023 – Present - São Paulo, Brazil · Hybrid

- Responsible for a refactoring project with over 10,000 lines of code in analytics, the new concept was adopted by more than 5 countries.
- Brazil Innovation Sprint Awards - The Analyzer (Analytics / Metrics) - Most involved data contributor.
- Integration of components with Adobe AEM and AWS.
- Database integration and API consumption.
- Ensuring a continuous and responsive user interface.
- Implementation of unit tests with Jest.
- Writing documentation and improving overall code quality.
- Presenting new features to global teams in demo meetings.
- Discussing with the technical team about requirements, performance, design, and emerging technologies.
- Collaborating with business areas to align technical requirements with the company's strategic goals.
